Dear Friends:

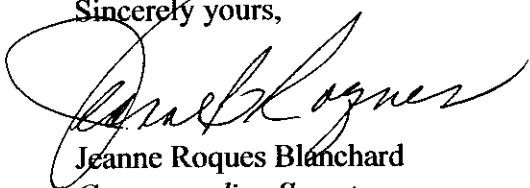

Your generosity to and support of CASA Jefferson is amazing! On behalf of Friends of CASA, Inc., thank you for your generous donation of a refrigerator and a freezer for the CASA Jefferson kitchen project.

This kitchen project was a rather large undertaking for the program. As you know, dozens of new CASA volunteers receive training and are sworn in every few months, and these dedicated CASA volunteers return to the Jefferson Parish Annex every month for ongoing training and assistance in advocating for the very special children they serve. It was imperative that the CASA program have a kitchen out-fitted to support such a large and constant flow of people. Your donations were needed greatly.

Friends of CASA, Inc. is dedicated to supporting the abused and neglected children of Jefferson Parish who are in the CASA program. We also support the invaluable work of the volunteer advocates and staff of CASA Jefferson who strive to improve the quality of life for these children and endeavor to find stable, safe and loving homes for them. It is wonderful to know that you share our devotion to these children and the CASA program.

The kitchen is just about done except for a large table on which we are awaiting delivery. We would be honored to have you come by and see the kitchen that you helped create.

Sincerely yours,

Jeanne Roques Blanchard
Corresponding Secretary
